

MICRODERMABRASION POSITION

It is the position of the NCEA that:

1. Microdermabrasion devices should be used by “licensed professionals.”
2. There shall be a minimum level of education for the use of microdermabrasion devices.
3. If licensed professionals wish to use microdermabrasion devices they should take the necessary licensing education to include theoretical and practical application as part of their core curriculum or as continuing education modules.

*Disclaimer: The NCEA recommends that “licensed professionals”
abide by Federal, State and Local Regulations.*
